

# Summary Graphic Organiser templates

## To use this resource:

*Option A (preferred):* Print the graphic organiser you need and distribute to learners.

*Option B:* Copy the slide that you would like to use and put it in a blank slide presentation.

You can copy a slide by selecting the one that you want and going to “File” and then “Make a copy” and then “Selected slides”. That will make a new presentation. To distribute to learners, share a copy for each student on Google Classroom.

Students can add text boxes and images to the slide to complete it.
